

# MyDay® multifocal

## FACT SHEET

<b>Lens Specifications</b>	<p>MyDay® multifocal contact lenses are a premium, high-performing breakthrough silicone hydrogel lens option for all levels of presbyopia.</p> <p><b>Base Curve:</b> 8.4mm  <b>Diameter:</b> 14.2mm  <b>Power Range:</b> +8.00D to -10.00D (0.25D steps)  -10.50D to -12.00D (0.50D steps)  <b>Add Power:</b> Low (+0.75D to +1.25D spectacle Rx add)  Med (+1.50D to +1.75D spectacle Rx add)  High (+2.00D to +2.50D spectacle Rx add)  <b>Material:</b> stenfilcon A  <b>Water content:</b> 54%  <b>Dk:</b> 80  <b>Dk/t (at – 3.00D):</b> 100  <b>UV Blocking*:</b> Class 2: 85% UVA / 96% UVB</p>
<b>Binocular Progressive System™</b>	<p>MyDay® multifocal incorporates a new technology called the CooperVision® Binocular Progressive System™ to enable optimal vision at every distance.</p> <ul style="list-style-type: none"> <li>• The innovative 3 add multifocal system uses different lens designs to optimise vision for all levels of presbyopia.</li> <li>• It is designed to help presbyopes achieve the vision experience they once had by offering optimal visual acuity at all distances, even as prescriptions and vision needs change.<sup>1,2,3</sup></li> </ul>
<b>Aquaform® Technology</b>	<p>MyDay® multifocal is designed with the same Aquaform® Technology used in all MyDay® and Biofinity® lenses to provide patients with a high level of daily comfort and performance.</p> <ul style="list-style-type: none"> <li>• The technology combines a unique balance of high oxygen permeability, a naturally wettable material, and optimum modulus for a soft flexible lens.</li> <li>• It promotes a healthy lens-wearing experience by allowing high oxygen levels to flow freely through the lens.<sup>4</sup></li> <li>• The technology locks moisture into the contact lens to help eyes feel less dry for a comfortable lens-wearing experience.<sup>1</sup></li> </ul>
<b>Key Insights</b>	<p>The MyDay® multifocal fitting guide helps provide a high fit success rate of 98% with two pairs or fewer<sup>2,5</sup>.</p> <p>86% of patients agreed that MyDay® multifocal meets their vision needs<sup>5</sup>.</p> <p>90% of patient expectations were met or exceeded for vision stability during the day with MyDay® multifocal<sup>5</sup>.</p>
<b>Availability</b>	<p>19 July, 2021</p>

**References:** \* UV-blocking contact lenses help provide protection against transmission of harmful UV radiation to eyes but are not substitutes for protective UV-absorbing eyewear, such as UV absorbing goggles or sunglasses, as they do not completely cover the eye or surrounding area. 1.
